

# TSI True Systems Intelligence

*"A Subsidiary of USSMC"*

## ***Why Do Business With Us?***

It is estimated that 95% of all businesses experience employee theft and management is seldom aware of the actual extent of losses or even the existence of theft.

By offering the best loss prevention system in the country and employing cost effective management solutions for our customers, we have been able to help companies in all areas of business maximize revenue through taking steps to reduce profit shrinkage.

When we take on a job, we mean business. We work with you to identify potential problems that may eat away at your profits. True Systems intelligence offers a wealth of knowledge in the nuts and bolts of the loss prevention industry, as well as the technological savvy to employ the latest in computer/video based advances.
