

Testimonial One

Dear Ms. Campbell,

Thank you for a wonderful class yesterday. I learned a lot about doing business with the federal government, particularly in how to navigate the enormous information that is out there through the web. It was an excellent introduction and you laid the ground superbly so that I can research and position my company to get some contracts in the future. Prior to your class, I did not know where to begin to do business with the federal government, although I have applied to get an 8(a) certification. I have an uncle who is just about to graduate from the 8(a) program and now we have set up a meeting to talk to see if we can do business collaboratively.

Anyhow, I wanted to say thank you for the great class (extremely affordable for the amount of information I gained!). Especially, you made it very interesting because you are knowledgeable, resourceful and entertaining. I am also proud to see an African-American at the top of her game! I will certainly be in touch during the next 2 months to learn more from you.

Best regards,

Mel

Testimonial Two

Good evening everyone,

Attached is the information on the all day training session with USSMC that I spoke with you about last night. I didn't want to this opportunity to pass anyone by. Trust me, attending will be tremendously advantageous.

Terry and I, along with another business associate, attended the training last week. We could not be more thankful for the opportunity! The information that we took away with us was beyond anything we could have imagined. In addition to being given a notebook filled with fabulous information, I took at least 20 pages of notes. Brenda Campbell is extremely knowledgeable and was very gracious to offer her time and services beyond the classroom with follow-up questions and assistance. Brenda is a wealth of information! She has several other classes that Terry & I believe will be very beneficial to us and Nissi Builders. We plan on meeting with her again regarding some additional training.

Trust me; you will be so thankful you made the decision to attend. This training will have a very positive impact on your future business. Thank you Brenda...for everything! And thank you Wes, for the LSBDE training and the many opportunities!

Have a great evening!

Testimonial Three

Mrs. Campbell,

Thank you...Thank you...Thank you!

The training was absolutely phenomenal. I realize now that I should have taken your course a long time ago. As my industry has gone through a transition, the information and strategies learned has not only been encouraging and motivational, but it has given me specific ideas and direction that will have a profound impact on our company's growth. Thank you for keeping it exciting and energetic. I appreciate your generosity with the information and your sincere desire to see the participants succeed.

We look forward to further participation.
