Bottom Line Benefits

- Convenient - As more and more people struggle to balance the demands of work and home, Distance Learning allows people to learn from work, home and on the road.
- Relevant - Since courses and content deal with the most current topics, our options will ensure training is applicable to the participants' business objectives.
- Immediate - Because training can be delivered via the Internet, our on line distance training will allow people to begin their training now, with just a few mouse clicks.
- Affordable - The bottom line is cost savings. Corporations save between 50-70% due to elimination of travel expenses according to the industry training associations.
- Online training also eliminates lost opportunity expenses. The time spent away from the job traveling or sitting in a classroom cuts down on an employee's productivity.
- Fun - By providing only the highest-quality interactive content, our options will not only effectively keep people up-to-date, but interested as well.
- Easy to Use - you only need an internet browser; HTML based and designed to load quick and get you learning fast; tested and proven online training designs with step by step, easy walk through. Features include: Bookmarks where you are so, you can easily return; Master index to search within all courses while in one course - easily move from one section of a course to a specific section within another course.
- Interactive - simulations have learners do what they are learning which leads to greater retention of covered material; accommodates different learning styles through audio, visual graphics, testing and printable exercises with PDF downloadable files for extra practice.
- Self-Directed and Convenient- Allow training participants will be able to learn at their own pace, quickly or take their time. Focus on what is needed - skip what you know or don't need. Or, repeat sections. You're always in control of learning where, when and how you want with unlimited access 24 hours/day, 7 days/week.
- Complete lessons - learn subjects in depth - Course glossaries included, no dictionaries needed; Built in notes, tips, quick references, detail links, and simulations; with exercises and practice files that increase your retention, up your level of involvement and keep the material fresh.
- Pre and post skill assessments measure your progress - can be used before, mid-way, or after taking the course. First try, best try and online course grade are tracked. If passed, green check mark will appear as 'mastered'. Scores page - there are direct links for the units, so if a training participant does not master a particular unit, they can go directly to retake that unit.
- Our team will strive to make distance education relevant and interactive, so that people are successful and want to continue learning. This Distance learning is designed to keep individuals and employees interested in a training and educational program by making online learning convenient, relevant, immediate, and fun.
